

## Dr. Debra Jaliman's HIPAA Policy

### HIPAA Policy:

Patients over the age of 18 are protected under the Federal Health Insurance Portability and Accountability Act. This Federal Law prohibits any staff member of Dr. Debra Jaliman from discussing appointments, medication, test results or treatment plans with anyone other than the patient. Often, this causes difficulty for some patients who would like family members or caretakers to obtain information for them. This becomes especially important if your spouse assists with making appointments for you or if you are an adult college student away at school and your parents assist with prescriptions and appointments.

If you would like to permit someone to discuss your medical condition, confirm appointments or obtain results for you, please indicate their name(s) below. Only these individuals will be provided with information. Should you wish to update the names provided below, please ask the receptionist for a HIPAA Form.
